New Delhi – NCR | +91 7007503989 | asimhaider8199@gmail.com | linkedin.com/in/asimhaider

MBA-trained Product Manager with a software engineering foundation, operating across product strategy, technology, and cross-functional delivery to translate business goals into shippable, user-centric outcomes. Currently building Voxelis 3D Solutions, a small 3D-printing startup, while combining hands-on full-stack development experience with Agile product execution to bridge business and engineering.

Experience

Founder & Product Builder

Voxelis 3D Solutions | voxelis3d.in

Lucknow, India

Jan 2026 – Present

- Developing a custom 3D-printing service offering rapid prototyping, functional products, personalized designs, and print-on-demand solutions as a small, self-run startup.
- Designed the complete customer journey – from uploading reference images and specifying requirements to receiving a 3D concept, quotation, and finished product.
- Built a React and Node.js platform supporting custom-order submissions, image uploads, order management, email notifications, and AI-assisted 3D previews.
- Managed product design, STL preparation, material selection, pricing, printing, post-processing, and customer requirements.

Product Management Intern

SkillStarter IND

Remote

Jun 2025 – Nov 2025

- Created comprehensive Product Requirement Documents (PRDs), translating business objectives into actionable, developer-ready technical specifications.
- Conducted market research and competitive analysis to identify product opportunities and inform strategic product development decisions.
- Participated in Agile sprint planning, backlog grooming, and retrospectives, contributing to improved team velocity and project workflows.
- Collaborated with cross-functional teams to streamline processes and elevate overall product strategy.
- Mapped end-to-end user journeys, identifying pain points and optimization opportunities that enhanced overall user experience.

Web Developer

Webtrix Solutions

New Delhi, India

Jan 2022 – May 2023

- Developed and maintained reusable React components using modern JavaScript (JSX, hooks, React Router), ensuring a scalable front-end architecture.
- Integrated REST APIs and debugged request/response flows, collaborating on Node.js/Express backend route development.
- Implemented and optimized MongoDB database queries using Mongoose, improving data retrieval performance.
- Resolved front-end and back-end issues through systematic debugging, writing clear documentation in GitHub issues and pull requests.
- Participated in Agile ceremonies including daily stand-ups, sprint planning, and retrospectives, contributing to team collaboration.

Projects

TaskFlow | Project & Task Management Platform – React, Node.js, Express, MongoDB

- Built a web-based project and task-management platform for small teams as the sole full-stack developer, with a React frontend and a Node.js/Express/MongoDB backend.
- Implemented secure login, role-based access control, task assignment, deadline tracking, and threaded comments to support day-to-day team collaboration.
- Designed a performance dashboard giving teams visibility into progress and workload at a glance.
- Delivered a functional MVP that centralized team communication and made project progress significantly easier to monitor.

Quick-Commerce Expansion Strategy | MBA Case Study – Market & Strategy Analysis

- Evaluated whether a quick-commerce company should expand into Tier-2 Indian cities, analyzing customer demand, competitive landscape, operating costs, delivery infrastructure, and profitability.
- Applied SWOT, PESTLE, Porter's Five Forces, STP, and unit-economics analysis to structure the strategic assessment.
- Recommended a phased market-entry strategy: pilot in select high-density locations using smaller fulfilment centres and a focused product range, with expansion gated on defined customer-retention and profitability targets.

Education

IU International University of Applied Sciences

Master of Business Administration (MBA) in IT Project Management

Berlin, Germany

Apr 2024 – Sep 2025

Indira Gandhi National Open University

Bachelor of Computer Applications (BCA), Computer Science

New Delhi, India

2018 – 2021

Skills

Product Management: Product Strategy, PRDs, User Stories, Market Research, Competitive Analysis, User Journey Mapping, Agile/Scrum, Sprint Planning, Backlog Grooming, Stakeholder Management, A/B Testing, Product Analytics

Tech & Tools: React, JavaScript, Node.js, Express.js, MongoDB, REST APIs, Git/GitHub, CI/CD (GitHub Actions), Jest, HTML/CSS

Platforms: JIRA, Confluence, Figma, Google Analytics, Slack, Microsoft Office Suite

Core Competencies: Cross-functional Collaboration, Data-Driven Decision Making, Process Optimization, Problem Solving, Technical Communication, Requirements Gathering

Certifications

Become A Product Manager – Cole Mercer & Evan Kimbrell, Udemy

Product Analytics Micro-Certification (PAC)[™] – Product School
